SKINCARE PHILOSOPHY

Powered by the 5-Axis System

Luxury Performance Hybrid

At Anne Jensen Beauty, we believe that exceptional skincare is never the result of a single ingredient. True skin transformation is achieved through the intelligent synergy of carefully selected marine ingredients, botanical extracts, bioactive compounds, and advanced skincare technology.

Nature offers an extraordinary diversity of ingredients, each with its own unique function. Through innovative formulation science, we combine these ingredients with precision to create high-performance skincare tailored to different skin types, lifestyles, and individual skincare concerns.

Our proprietary **5-Axis System** works through multiple pathways to help restore balance, improve skin health, and deliver visible, long-lasting results. This unique hybrid approach is the foundation of every Anne Jensen Beauty formulation.

Our Collections

Diamond Marine Collection

Powered by potent marine ingredients and developed using our exclusive **Marine Water Method**, this collection delivers intensive hydration while helping to revitalise, strengthen, and restore the skin's natural vitality.

Diamond Japanese Skincare Collection

Inspired by the timeless principles of Japanese beauty rituals, this collection focuses on balance, simplicity, hydration, and skin harmony. Each formula is designed to support healthy, radiant skin through carefully selected ingredients and elegant textures.

Diamond Lifting Effect 40+ Collection

Developed specifically for mature skin, this collection helps improve the appearance of firmness, elasticity, and definition while providing deep nourishment and long-lasting comfort. The formulas are designed to support skin that shows visible signs of ageing.

Diamond Hydration Collection

A deeply moisturising collection that replenishes the skin's moisture reserves, reinforces the skin barrier, and helps maintain optimal hydration throughout the day. The result is smoother, softer, and healthier-looking skin.

Diamond Clarifying Skin Collection

Created for combination, oily, and blemish-prone skin, this collection helps balance excess oil, refine skin texture, minimise the appearance of pores, and promote a fresh, clear, and healthy-looking complexion.

Diamond Radiance Collection

An intensive nourishing collection enriched with carefully selected peptide oils and restorative ingredients. Designed for very dry, stressed, and demanding skin, it helps improve comfort, softness, resilience, and natural radiance.

Scandinavian Design. Global Expertise.

Anne Jensen Beauty combines advanced skincare science with timeless Scandinavian design. Every product reflects our commitment to quality, functionality, and understated luxury.

Why Anne Jensen Beauty?

- Scandinavian luxury design with international appeal.
- Advanced hybrid skincare developed through the 5-Axis System.

Diamond Clarifying Lotion is a lightweight, fluid emulsion specially developed to meet the needs of combination, oily, and blemish-prone skin. Its elegant texture absorbs quickly while providing exceptional comfort, leaving the skin feeling fresh, balanced, and hydrated.

The advanced formula combines **Succinic Acid**, **Zinc Gluconate**, **BioEcolia® Prebiotic**, and a soothing **Anti-Adhesion Active** to help target the visible signs of skin imperfections while supporting the skin's natural microbiome balance.

Working in synergy, these powerful actives help refine skin texture, reduce excess shine, minimise the appearance of blemishes, and promote a clearer, more even complexion. The skin regains comfort, softness, and a healthier-looking appearance.

Key Benefits

- Helps reduce the appearance of imperfections
- Helps regulate excess sebum and shine
- Promotes a clearer and more even complexion
- Supports and balances the skin microbiota
- Helps prevent pore congestion
- Provides soothing and comforting benefits
- Leaves the skin purified, mattified, and refreshed
- Suitable for combination, oily, and blemish-prone skin

Hero Ingredients

- **Succinic Acid** – A biotechnology-derived active ingredient obtained from corn starch. A gentle alternative to traditional exfoliating acids, it helps support the skin's natural renewal process, remove dead skin cells, reduce pore clogging, help control excess sebum, and improve the appearance of blemished skin.
- **Zinc Gluconate** – A mineral-derived active known for its purifying and balancing properties. It helps regulate excess oil and supports clearer-looking skin.
- **BioEcolia®** – A natural-origin oligosaccharide prebiotic derived from sugars. It acts as a beneficial nutrient for the skin microbiota, helping to strengthen the skin's natural defences and improve skin comfort.
- **Anti-Adhesion Active** – A polysaccharide obtained through bacterial fermentation that forms a protective shield on the skin surface. It helps limit the adhesion of unwanted bacteria, including *Cutibacterium acnes*, while providing soothing benefits and supporting microbiota balance.

Professional Result

With continued use, the skin appears clearer, more balanced, and less shiny. The complexion looks smoother and more even, while visible imperfections are reduced and skin comfort is restored.

Diamond Clarifying Cleansing Foam

Purifying Cleanse. Skin Balance. Clear Radiance.

Diamond Clarifying Cleansing Foam is a gentle yet effective daily cleanser specially developed for combination, oily, and blemish-prone skin. As the first essential step in a targeted skincare routine, its airy foam texture helps remove impurities, excess sebum, and environmental residues while respecting the skin's natural balance.

Powered by a combination of **Succinic Acid**, **Zinc Gluconate**, and **Wild Pansy Extract**, this intelligent formula helps purify the skin, refine the appearance of pores, and restore a clearer, more balanced complexion.

Succinic Acid, obtained through biotechnology from corn starch, provides a gentle alternative to traditional exfoliating acids. It helps support the skin's natural renewal process, remove dead skin cells, reduce pore congestion, and improve the appearance of imperfections.

Wild Pansy Extract, valued for centuries for its skin-benefiting properties, helps regulate excess sebum and improve the appearance of oily skin. Combined with **Zinc Gluconate**, the formula helps reduce shine while promoting a fresher, more even-looking complexion.

Key Benefits

- Gently cleanses and purifies the skin
- Helps remove impurities and excess oil
- Helps reduce the appearance of imperfections
- Supports clearer and more balanced-looking skin
- Helps minimise the appearance of pores
- Reduces excess shine for a more mattified complexion
- Leaves the skin fresh, comfortable, and radiant
- Suitable for combination, oily, and blemish-prone skin

Hero Ingredients

- **Succinic Acid** – A biotechnology-derived active ingredient obtained from corn starch. It helps support natural exfoliation, remove dead skin cells, reduce pore clogging, and improve the appearance of blemished skin.
- **Zinc Gluconate** – A mineral-based active known for its purifying and balancing properties, helping to regulate excess oil and support clearer-looking skin.
- **Wild Pansy Extract** – A botanical extract rich in tannins, traditionally valued for its sebum-regulating properties and its ability to support oily and blemish-prone skin.

Professional Result

With continued use, the skin appears clearer, more balanced, and less shiny. The complexion looks smoother and more even, while visible imperfections are reduced and skin comfort is restored.

A sophisticated clarifying lotion that combines biotechnology, microbiome science, and targeted skincare expertise to help achieve purified, balanced, and healthy-looking skin.
