

**ANNE JENSEN**  
LONDON PARIS NEW YORK

Make up today comes in different versions, both so-called clean beauty but also ordinary standard. However, no one has ever put it together in a series that suits all skin tones. Whether you have dark or light skin, everyone can use Anne Jensen trend design colors as they adapt to the skin tone and give a velvety soft look. For example, the Flower eyeshadow palette can be used by both Scandinavian very light skin without being too intense in color, but it can also be used on very dark skin where the pigment colors will automatically be highlighted.

# FOUNDATION

## COMPLEXION

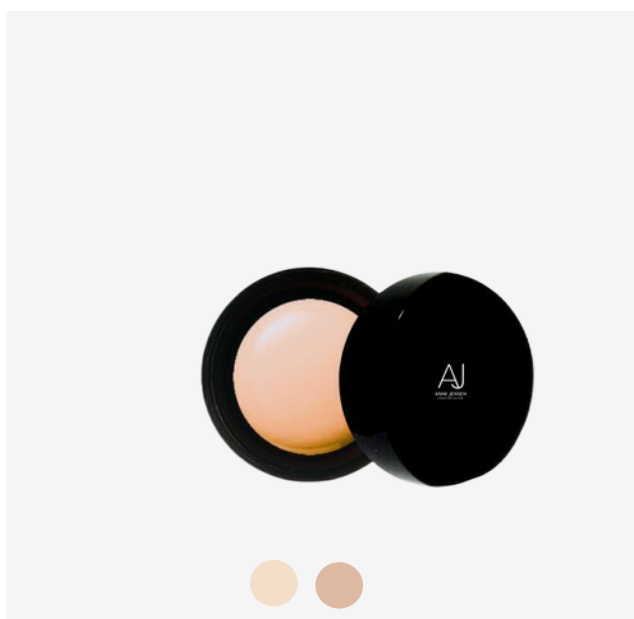

**DIAMOND VELVET SATIN FOUNDATION**
